

Research Proposal/Design presentations through MP4 video, ppt submission (20%) - 11:59pm, Friday 25/10

Start Assignment

- Due 25 Oct by 23:59
- Points 20
- Submitting a website url, a media recording, or a file upload
- Available 30 Sep at 9:00 - 1 Nov at 23:59

This assessment is an oral presentation where you will be required to present a summary of your **research proposal and design** in a 5-10 minute video recording of your presentation. The presentation will be based on the work from all your previous assignments.

Presentations will be loaded on the unit site and some possibly shared with other members of the class with your permissions from the coversheet. We will not share those presentations that do not have your written consent in the coversheet.

Students are required to upload a copy of their presentation slides and a 5-10 minute video of the presentation to the assignment submission inbox by 11:59pm, Friday 25/10, Week 13. As with other previous assignments, students must upload the files zipped containing:

- Individual Presentation Cover sheet (.docx or .pdf) as attached, sign off authority to share your video and pdf slides with other colleagues in the class
- A copy of the PowerPoint presentation slides (.pptx or .pdf)
- A video file that is a maximum of 10 minutes long. You may use any package to record your video - such as PowerPoint, echo360, VirtualRoom, Teams, Zoom, VLC or any other package to generate and upload a video file (in MP4 format). Then upload the zipped video file through canvas.

The files with a guide for presentation are accessible [here](#)

<https://uclearn.canberra.edu.au/courses/16443/modules/215311>). Tips on presenting research talk is also given here.

It is the student's responsibility to ensure that their presentation is within the slides and time limit outlined in the assignment description and that the presentation content addresses the presentation requirements and marking criteria (rubric).

Criteria	Ratings	Pts
<p>Research Problem - your selected topic&questions</p> <p>A working title, description of research problem/question/hypothesis, motivation/significance of the study.</p>		5 pts
<p>Research Methodology</p> <p>Explain any theories you intend to use?</p> <p>What is the research strategy - how will you carry out your research and why the selected methods are appropriate?</p> <p>Contributions of the study to either theory or practice or both. Explain.</p> <p>Additional topics (e.g. research quality, ethical issues, study limitations).</p>		8 pts
<p>Presentation Structure</p> <p>Presentation is logical in terms of the flow of concepts and research steps.</p> <p>Presentation uses well designed slides that are easy to follow and cover the assessment requirements.</p>		3 pts
<p>Clarity of Delivery</p> <p>Presentation with a high level of clarity, using academic and research language. Slides not crowded.</p>		2 pts
<p>Slides and Time Limit</p> <p>Reasonably adheres to the slides limit.</p>		2 pts
Total points: 20
